Jungfrau Region

Welcome!

A warm welcome to the Jungfrau Region – in the heart of Switzerland

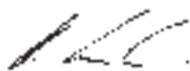

During your stay in the Jungfrau Region you'll be greeted by a mountain world with eternally white summits. The icy trio of the Eiger, Mönch & Jungfrau seems almost close enough to touch. Interlaken – the gateway to the Jungfrau – nestles between two crystal-clear lakes. A hiking paradise and chalet villages await you in Wengen and Grindelwald. Whether your taste is for Swiss tradition with alphorn players or a racy downhill ride with one of the new mountain carts: the excursion mountains of the Jungfrau Region are full of attractions for adventure freaks, hiking fans and those simply seeking peace and quiet. In winter, the Jungfrau Region offers over 200 kilometres of pistes as well as a wide variety of sledge runs and winter-walking paths. And while freestylers practice their jumps in the halfpipe on Grindelwald-First, skiers can test their skills on the famous Lauberhorn downhill piste.

The highlight of every visit to Switzerland is the trip to the Jungfraujoch – Top of Europe, Europe's highest-altitude railway station. The Jungfrau Railway is one of the world's most impressive feats of railway construction. The cogwheel railway has been travelling from Kleine Scheidegg through a seven-kilometre – long tunnel hewn through the rock of the Eiger and Mönch since 1912.

After climbing 1400 metres in height, the Jungfrau Railway reaches its goal, the Jungfraujoch at 3454 metres above sea level, open 365 days a year. Visitors arrive in the UNESCO World Heritage Jungfrau-Aletsch, a world of eternal ice and snow. The Alpine Sensation round tour, Ice Palace, Sphinx vantage terrace, panorama restaurants and the Lindt Chocolate Shop, the highest of its kind in the world, guarantee a unique experience in sensational natural surroundings.

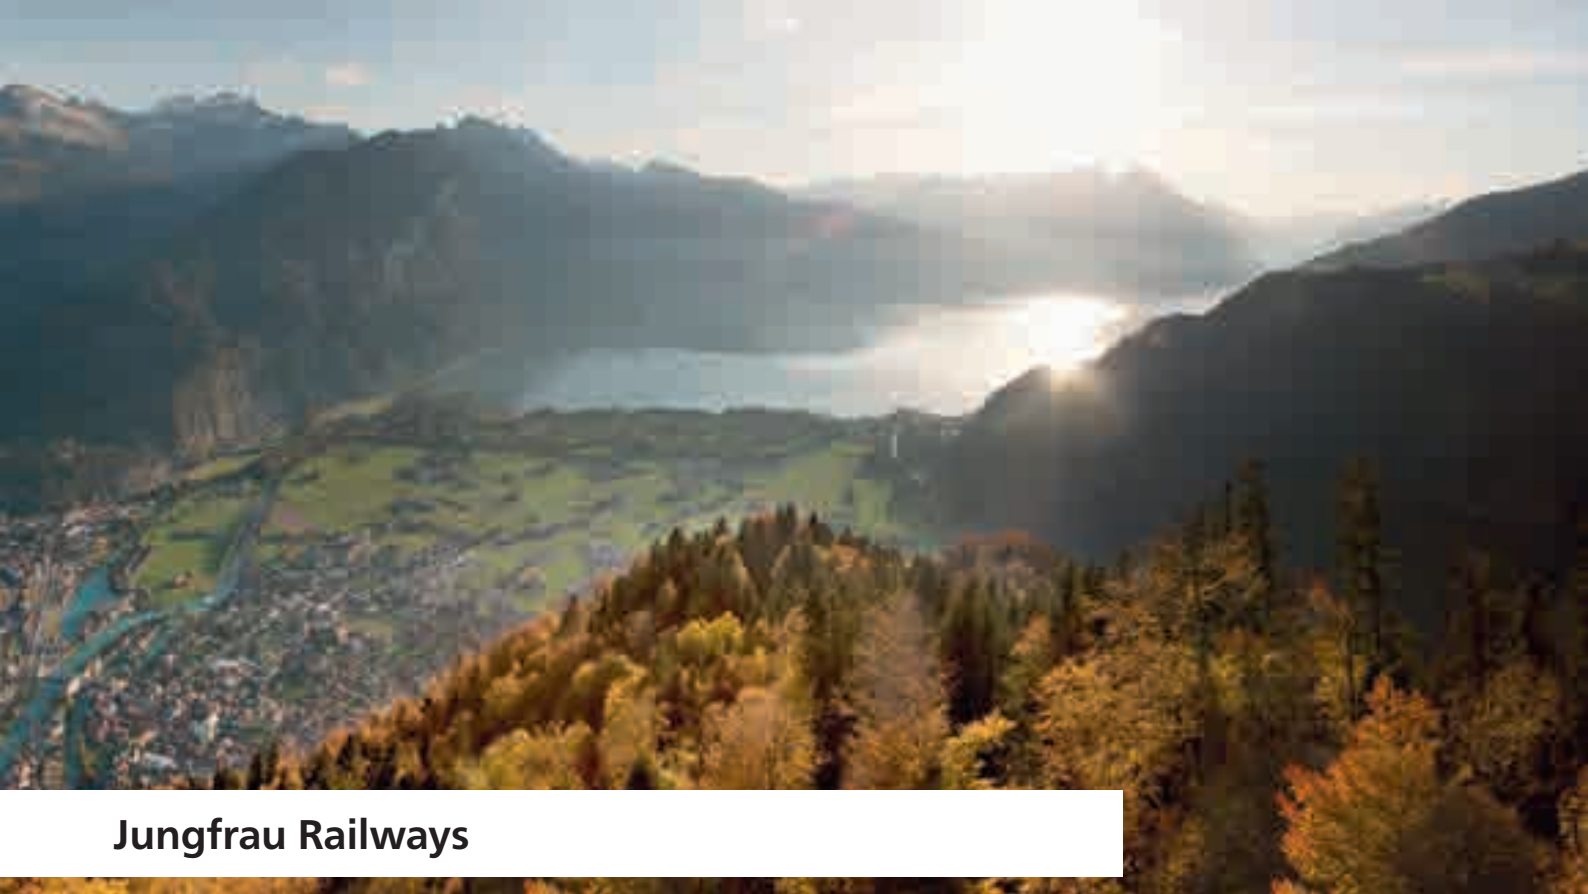

The Jungfrau Region captivates visitors with its natural beauty and diversity, in summer as well as in winter. This is where you'll find the best of Switzerland in one place. We look forward to welcoming you and wish you an unforgettable stay.

With best regards,

Urs Kessler, CEO

Jungfraujoch Top of Europe

to Europe's highest-altitude railway station · 3454 m

The visit to the Jungfraujoch–Top of Europe is one of the most memorable experiences in every tour of Switzerland.

The construction of the Jungfrau Railway numbers among the most impressive achievements in railway technology. The brainchild of Zurich industrialist Adolf Guyer-Zeller, the railway was officially opened on 1 August 11912 after a building period of 16 years. It runs from Kleine Scheidegg through the Eiger to the Jungfraujoch–Top of Europe, Europe's highest-altitude railway station at 3454 metres above sea level.

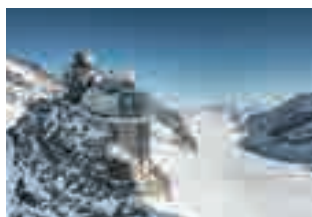

Thanks to new and faster trains and only one intermediate stop in the tunnel, travelling time to the Jungfraujoch–Top of Europe has been reduced by approximately 15 minutes each way. In addition, the journey itself has become more flexible. As from 2016, trains to the Jungfraujoch–Top of Europe run every thirty minutes.

Jungfrau Eiger Walk – from Eigergletscher to Kleine Scheidegg

The theme trail, which tells of the triumphs and tragedies on the Eiger North Wall, can be walked in one hour. The wide path from the Eigergletscher station down to Kleine Scheidegg can also be hiked uphill in the opposite direction. The trail passes the original hut in which mountaineers spent the night before beginning their ascent. The interactive, multimedia installation in the 'Kirchli' (a former transformer station, often said to resemble a small church) shows the ascents of the world-famous wall of rock. The boulders around the lake are memorials to the mountaineers who lost their lives on the Eiger.

Individual seat reservations

Kleine Scheidegg – Jungfraujoch

As the number of our guests increases, the primary concern of Jungfrau Railways is to continually improve quality. To minimize the number of standing places and to offer all our guests a seat, we are introducing a seat-reservation system for individual travellers on all scheduled trains on the Kleine Scheidegg - Jungfraujoch section, in both directions and all year round. Individual seat reservation is not obligatory but recommended because of the high visitor numbers during summer.

Customers are guided using colours and pictograms. For example: visitors with an individual seat reservation on Kleine Scheidegg or the Jungfraujoch go to a separate waiting area (green) and have a guaranteed reserved seat on the train.

The individual waiting areas are separated by colour.
