Meeting locations in Eastern Switzerland

St.Gallen and eastern Switzerland – conferences between books and textiles. Surrounded by tradition and custom.

UNESCO World Heritage Site. Textile history which can be seen and felt even today. The Abbey Library with 170'000 that will take your breath away. The Alpstein mountains in the background emanate a sense of endurance and confidence and are home to tradition and customs. Lake Constance as a place to broaden personal horizons: the multifaceted nature of eastern Switzerland opens up a whole new world of opportunity. Also a location for meetings, incentives and conventions.

St.Gallen and eastern Switzerland offer not only surprises, but also a lot of authenticity. We love to play with the diversity of our destination and create controversy. We think out-of-the-box to enhance traditional conference concepts and create space for creative thinking, efficient work and sustainable output. As added value for your event and your participants. All service providers in the destination have one common goal: to guarantee your satisfaction and to share the richness and uniqueness of our region in that process. Because the ultimate aim is for you to come back and visit us often!

Our secret? Great passion, personal commitment and an eye for what is new and innovative. And, of course, our love for the destination.

Of books and textiles. Surrounded by tradition and custom.

The multifaceted nature of Eastern Switzerland is special. Knowledge thousands of years old in over 170,000 books can be found in our beautiful Abbey Library. In the heart of the UNESCO World Heritage site. Textile history can still be seen and felt in many corners of St.Gallen and eastern Switzerland. The beautiful mountains that serve as the backdrop for our destination and emanate a sense of endurance and confidence offer many dynamic locations to make your event a success. And of course Lake Constance which gives us as residents of eastern Switzerland a feeling of boundlessness and encourages us to look beyond the horizon.

Incorporate these themes into your next event. Play with them and give your event a common thread. We are convinced that this will give your event added value and remain engrained in the minds of your conference participants.

Textile cloths: Sleep in the textile room, experience culinary highlights through exclusive textile menus, trace the footsteps of the textile history together with Schlaepfer, Saurer and Co. Stroll through the narrow streets of St.Gallen and discover the hot spots of haute couture along the way. Textile workshops, technical guided tours through the museum and cloths for visitors to touch – just a few of the possibilities for gaining a glimpse into the history of the textile industry of St.Gallen and eastern Switzerland.

Thousand year old books: the Abbey Library – a special place at the heart of the UNESCO World Cultural Heritage site. A place to pause, marvel and experience. And to learn exciting facts about the city of St.Gallen. This history can also be informally integrated into your event in a unique way. We have a lot of ideas and would like to work with you to make them a reality.

Tradition and customs: cooking with granny, with local products and old recipes. Cow rides, days in the silo. Look over the shoulder of the Appenzell craftsman and then make your own «en egschterege Schlösslaahenke», Swiss dialect for keychain. The next morning enjoy an Appenzell brunch at the foot of the Säntis or a rustic picnic on the banks of Alpsee (Lake Alpine). And in-between: the conference in the cow barn, on the mountain or on hay bales.

Does not all this arouse your curiosity? We guide you through the world of eastern Switzerland integrate it into your meeting strategy successfully and sustainably.
